## More Than One Way to Donate

The Foundation accepts donations in a number of ways. While the most common method is online with a credit card, we also accept donations in the form of stocks/securities transfers and honoraria from both ASE and non-ASE projects. You can even include the Foundation in your will or trust. If you have ever thought that your contribution doesn't matter – think again! Every penny helps bring us one step closer to our 2022 Annual Appeal fundraising goal of \$225,000. View all the avenues available to you by visiting [our website](#).

## Research Funding Available

### Impact of Echo Report Recommendations for Severe Valvular Heart Disease Research Grant

**Applications Due: August 31, 2022**

Multi-year funding (up to two years) valued at up to \$1.1M USD is available for a project that aims to examine the impact of embedded echocardiography report interventions on referral patterns and outcomes in patients newly diagnosed by echocardiography with severe aortic stenosis (AS). This study in particular will examine the role of a primary care provider and referral patterns to a cardiac specialist for patients presenting with severe AS, though the study may be expanded to include other forms of severe valve disease. One grant will be awarded by ASE through the Foundation, with the support of funding from Edwards Lifesciences. More information available [here](#).

**Application closes August 31, 2022, 5:00 PM ET.**

### 2023 Pamela S. Douglas, MD, FASE Research Scholar Award

**Application Opens: August 1, 2022**

The Foundation will begin accepting applications for the 2023 Pamela S. Douglas, MD, FASE Research Scholar Award on August 1, 2022. This award will grant a one-year (12 months) scholarship of \$75,000 USD to support a clinical or translational research scholar in advanced cardiovascular ultrasound research. More information available [here](#).

**Application closes September 30, 2022, 5:00 PM ET.**
