2023 and 2024 Global Health Outreach Events Proposals

The Foundation's [global health program](#) brings adult and pediatric cardiac care to areas of the world where mutual exchanges of clinician education and training will benefit patient care, and provide direct patient services to at-risk communities. If you have a connection with an underserved population and would like to propose an event, applications are now being accepted for events to be implemented in 2023 and 2024.
