

Your Donations In Action

Thank you, Team Senegal!

In late June, a team of ASEF volunteers traveled to Dakar, Senegal to collaborate with the **Senegalese Society of Cardiology (SOSECAR)**. The team worked together on two fronts: first, to enhance screening, early diagnosis, and prevention of rheumatic heart disease in vulnerable populations, and second, to conduct in-person and virtual clinical training and educational activities for clinicians across Western Africa. The week's work resulted in assessing over 2,200 local students in 2 days, and educational engagement with hundreds of local and regional clinicians. In between, the team learned from each other, danced, and forged global connections and friendships.

Merci beaucoup, thank you so much, to our amazing medical team, led by **Professor Abdoul Kane, Dr. Warner Mampuya, and Dr. Cynthia Taub**; and to our Partners in Care: **Philips, UltraSight, and the National Board of Echocardiography, Inc.** This would not have been possible without all of you! Stay tuned for future updates and reports from the team on ASEFoundation.org and in ASE's [Echo magazine](#).
