

Your Donations In Action

When you donate to global health, your donations not only support the implementation of outreach events – like our Team Senegal and Team India programs this year – but they also provide funding for two travel grant programs that support volunteers participating in an ASE Foundation event for the first time. We are honored to recognize our 2025 recipients and thank them for their contributions to this year's outreach events!

The [Adams Global Service Award](#) was established in 2016 in honor of ASE member **David B. Adams, ACS, RCS, RDCS, FASE**. This \$1,500 travel grant is given to a sonographer volunteer who is participating in an ASE Foundation global health outreach event for the first time. This program recognizes David's numerous contributions to the success of the Foundation's global health program through his international outreach experience, clinical skills, and leadership abilities. Our 2025 recipients are:

**Roslyn Brosier, CVT, RCS, RCVT,
RDCS, RVS, FASE from Virtua Health,
Willingboro, New Jersey**

**Hélène Plante, DEC from Sherbrooke,
Quebec, Canada**

The [Tatum Global Health Travel Grant](#) was established in 2023 in memory of ASE member **Gregory H. Tatum, MD, FASE**. This \$1,500 grant is given to a cardiologist or sonographer working in pediatric and congenital heart disease who is participating in an ASE Foundation global health outreach event for the first time. Greg had a passion for global health, and we hope this program encourages others to follow in his footsteps. Our 2025 recipients are:
