

A Patient's Guide to Heart Ultrasound

Through this initiative, the Foundation hopes to empower patients to talk to their medical professionals about the use of cardiovascular ultrasound in their diagnostic plans and ongoing treatment. Consider allocating your next donation to Patient Education so the Foundation can continue this effort.

Inaugural Bijoy Khandheria Memorial Lecture

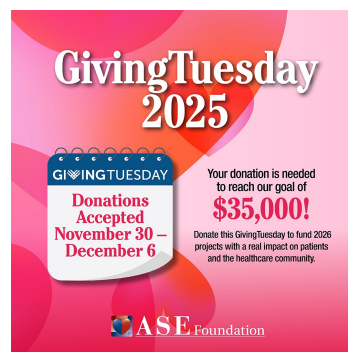

Jagat Narula, MD, PhD

"Global Health: Echo Changes the World" with an introduction provided by **A. Jamil Tajik, MD, FASE**

GivingTuesday 2025

GivingTuesday is a global generosity movement - a day that encourages people to do good. The ASE Foundation is once again joining the movement by hosting its own GivingTuesday fundraiser! Please mark your calendars and plan to contribute to our **\$35,000** goal. Donations will be accepted at My.ASEcho.org/Donate November 30 – December 6.

GivingTuesday is the Foundation's largest annual fundraiser, after the Research Awards Gala. If you are planning to donate, let us know! Contact Foundation@ASEcho.org to pledge your support early and encourage others to join you.

ASE 2026 Dues Renewal

It is time to **renew your ASE membership** for 2026! Your renewal invoice includes a suggested donation to the ASE Foundation Annual Appeal. Accepting this donation when renewing your membership is a simple and meaningful way to support the field of cardiovascular ultrasound. If every member donated \$25, we would raise **over \$525,000!**

Start thinking about your 2025 charitable contributions before the year ends! Learn about the numerous ways you can give to the ASE
